Resource

DAFCGOC First Term Officer Course

First Term Officer Course (FTOC) is designed to provide new Second Lieutenants, First Lieutenants, and Captains the foundation to successfully integrate into their first assignment, as well as to build fundamental skills for new officers. This recommended three-day professional development course will consist of exercises, leadership panels, workshops, and lesson plans which are designed to engage each student. The ultimate goal of FTOC is to instill a sense of confidence in young officers by empowering them to be the best officers in the Air Force and Space Force. The resources provided by the Department of the Air Force (DAF) regarding how to operate within this organization are numerous, yet our FTOC takes the proactive step of categorizing and systematically reviewing said resources.

This tool provides draft curriculum, instructor resources, lesson slides, course curriculum feedback surveys, a Student Handbook, and so much more!
